

Orlando FSDO FAAST Team presents:

NEXRAD radar coverage in my cockpit - now what?

DATE CHANGE: Although this EAA-IMC Club meeting / WINGS Seminar is normally held on the third Monday of each month, this month, only, it will be held on the fourth Monday, January 25, 2016 at 7:00 pm in the Vigilante Room at Sanford Airport.

I've got NEXRAD radar coverage in my cockpit - now what?

So, you've recently added XM Weather, upgraded your avionics with data link, or purchased a Stratus to use FIS-B with an iPad.

Now you can enjoy the benefits of NEXRAD radar right in your cockpit. It's easy to assume that you stay out of the red areas, use caution around the yellow areas, and safely pass thru the green areas of radar coverage, but there's a lot more to understanding NEXRAD and to discern all it can tell you. How do you best use NEXRAD for safe conduct of flights in your aircraft?

Come participate in the monthly EAA/IMC Club meeting and WINGS Seminar to gain a better understanding of this NEXRAD resource in your cockpit. You'll hear a discussion between AOPA Air Safety Institute President, Bruce Landsberg, and renowned author, Dr. David Strahle, in an AOPA video presentation on how best to interpret these radar images to make your flying safer.

Your personal experiences with NEXRAD will
